While this is still scanning, I could take a snapshot of the ARICs shown in the PP for B as an example

Here it is.
It is not too bad...

Is there a way you can copy RA1 graphic from the Parcel F discussion yesterday and paste it on a full page. No legend required. But that would be easier to read than the graph you sent me

John:

Attached are the 8.5x11 maps of proposed YSL, proposed Parcel F, Parcel E, and Parcel E2 remedies.
I have the original 11x17 pdfs if you want them.

I will send you the groundwater maps next.
